Checklist of Current Government Serial Publications Containing Vital or Migration Statistics 481

NOTES ON SOURCES

The following lists of current bibliographies and of other periodicals comprise those checked through regularly in the preparation of Population Index. The endeavor is to see each issue as promptly as possible, though some lags are unavoidable. In addition, a number of other bibliographies and periodicals are seen less consistently. In the list of periodicals medical, geographical, and historical literature is lightly represented, because primary reliance has been placed upon outstanding bibliographies, notably on the Index Medicus, Current Geographical Publications, the American Historical Review, and the Monthly Index of Russian Accessions of the Library of Congress. This listing of sources excludes statistical and other official publications that do not contain substantive articles, serial publications that are not periodical, and of course, the books and monographs seen.
